

## RECLINING CREEPER SEAT SKU 5150027

### Adjustable Creeper Seat for Increased Comfort

Our super-plush adjustable creeper seat is the must-have accessory for the MaxJax portable car lift. Easily converts from a low-profile creeper to a comfortable work seat allowing you to perform work under a lifted vehicle while being in extreme comfort.

If you're looking for increased mobility and overall comfort while working under your new MaxJax, put yourself in the driver's seat with this USA-Made adjustable work creeper. Go from 2.5" low-profile creeper to fully reclined work seat in mere seconds. Because you'll be seated in an upright position, it provides an effortless way to get from under the car to the tool chest and back again.

Fully adjustable, full-padded seat and headrest are each adjustable providing a variety of ergonomic working positions. Smooth-gliding, oil-resistant urethane casters provide effortless movement allowing you to travel freely whether you're working under a vehicle on your MaxJax, or in the driveway polishing the underside of your boat. Its rugged 3/4" welded tubular-steel frame supports up to 570 pounds and stands up to everyday workshop abuse. Heavy-duty marine-grade vinyl makes it water, stain and abrasion resistant, fire retardant and antimicrobial, plus it's very easy to clean and maintain.
