

## MOTORCYCLE ADAPTER KIT SKU 5150026

Use MaxJax for Motorcycles & ATVs

With the Motorcycle Adapter, you can quickly and easily transform your MaxJax into the perfect dual-purpose tool for your vehicles and bikes. The tall lifting height of the MaxJax makes motorcycle maintenance convenient, comfortable, and safe. Get to every serviceable part of your motorcycle or ATV without having to slouch or crawl on the floor. Add our optional Motorcycle Adapter to your order and double the service capability of your MaxJax. This accessory is also great for servicing lawnmowers and other garden care equipment.

The Motorcycle Adapter is made of heavy-duty stainless steel and is designed to safely lift motorcycles, ATVs and other motorized vehicles up to 1,500-lbs to a comfortable working height. Durable polyurethane pads are slip and corrosion resistant to keep your bike in place while you work.

If you own or are looking to purchase MaxJax and looking for something to lift your bike or ATV, you don't need a completely separate motorcycle lift to perform the work you want to do. MaxJax offers you the best solution to convert your MaxJax from a full two-post vehicle lift to the motorcycle lift you've always wanted to service all your bikes and other toys. Make MaxJax one of the most versatile tools in your garage with the MaxJax Motorcycle Adapter.
