

## 9-GALLON UPRIGHT OIL DRAIN SKU 5150997

### Wide-Body, Lightweight 9-Gallon Oil Drain

Pulled from the Ranger Products® line of shop equipment, the RD-9G features a wide-body design to eliminate tipping and ensure proper balance, whether the unit is in use or maneuvering around the garage on its integrated ball-bearing casters. Constructed of high-quality translucent polyethylene for strength, durability and easy oil-level viewing, it resists rust, dents, automotive fluids and other corrosive chemicals.

The RD-9G oil drain is the perfect solution for changing oil on vehicles lifted high in the air by the MaxJax two-post lift. With an adjustable height, the super-wide 18" funnel can be positioned right underneath the oil drain or any other fluid extraction area to keep harmful fluids safely in the 9-gallon container and off your floor. Evacuation is simple with the easy-pour oil spout. Oil drains are by far the best solution to the common problem of waste fluids. Elevate your convenience when using MaxJax by purchasing the RD-9G oil drain for your garage!

### Features/Specs

- Lightweight for easy portability
- Safe and easy to use
- Wide body
- Tough construction will resist dents, rust and corrosion
- Heavy-duty stainless steel clamp
